

The Green Laser Blazer self contained assembly provides intense green light in two power configurations 10mW and 30mW. The intense green beam is useful for visual applications in harsh or industrial environments, with optics housed in a sealed cell to provide added protection against contaminants and moisture.

## Features

- \* 532nm TEM<sub>00</sub> operation
- \* Power stability >  $\pm 5\%$  to  $\pm 10\%$  over 8 hours
- \* Rugged industrial packaging
- \* Entirely self contained
- \* No additional heat sinking required
- \* 10VAC to 240VAC, 50Hz/60Hz
- \* 12 Months warranty
- \* Warm up Time < 10 minutes

## Models

- \* GLD-9810  
**10mW**, (20ft Line)  
Bracket: 94 and MLD bracket
- \* GLD-9830  
**30mW**, (65ft Line)  
Bracket: #2701 Green laser bracket
