Moistec 2 in 1

Wood moisture - Building moisture

The new miniature measuring instrument "MOISTEC 2in1" is now one of the smallest wood/building moisture meter worldwide which provides a measuring mode for two different materials.

It is easy to use and simplifies the daily control measurements.

- by pushing a button you can choose the measuring mode between
woodproducts (also firewood) and building materials like concrete.

- the MOISTEC 2in1 is equipped with an easily readable digital display
and two exchangeable measuring pins.

- the measuring instrument includes an autocalibration function for equal lasting results of measurement, as well as a battery - test function and an automatically turn off function.

Technical Specifications

Measuring Range Wood	**5% - 50%**
Building Material	**1.5% - 33%**
Dimensions	82 x 46 x 16mm
Weight	42g
Resolution	0.1%
Display, Signs	LCD, 3.5
Power Consumption	ca. 1.6mA
Power Supply	DC 12V, 23A
Housing	ABS
